About the author	viii
Acknowledgments	ix
Chapter 1: Introduction	1
Chapter 2: Operations and maintenance planning	3
Marina operations manual	3
Facility policies and procedures	4
Customer documents	4
Valdez Moorage Agreement	6
Resource library	5
As-built drawings	5
O&M manuals	8
Inspections of the harbor facility	8
Determine frequency	8
Facility inspection forms	9
OSHA monthly checklists	9
Valdez Small Boat Harbor Monthly Facility Inspection Checklist	10
Harbor economics	11
Maintenance costs	11
Moorage rates	12
Economic impact of the harbor	12
Chapter 3: Fire safety	14
Fire safety training	15
Fire safety plan	16
Fire Safety Plan for Valdez Small Boat Harbor	18
Fire fighting equipment	23
Chapter 4: Facility safety	25
Power system	25
Valdez Boatyard Policies	26
Floating dock freeboard	28

Water rescue equipment	29
Personal protective equipment	30
Kids Don't Float Program	31
Housekeeping	32
Pedestrian falls	32
Lighting	33
Marine mammals in the harbor	33
Earthquake and tsunami dangers	35
Chapter 5: Hazardous and other materials: best management practices	38
Best Management Practices/Environmental Concerns	40
Used oil collection	41
Solid and liquid waste materials	43
Fishing line, fishing nets, and plastics	44
Plastic wastes best management practices	45
Hull scrapings and sanding products	45
Hull scrapings and sanding products best management practices	46
Scrap material generated by vessel repairs	46
Scrap material best management practices	47
Contaminated fuel or water	47
Liquid and aerosol paints	48
Liquid and aerosol paint best management practices	49
Lead-acid batteries	49
Lead-acid battery best management practices	50
Fish waste	50
Fish waste best management practices	51
Trash and garbage	52
Trash and garbage best management practices	52
Hazardous materials training	52
Chapter 6: Marine structures	54
Mooring docks	54
Wood floating docks	54
Concrete floating docks	56
Fixed docks	58

Anchor pilings	60
Tidal grids	62
Launch ramps	64
Valdez Harbor Launch Ramp Guidelines	65
Breakwaters	67
Rubble-mound breakwaters	67
Permeable wave barriers	68
Flexibility in design	68
Resistance to seismic damage	70
Environmental impacts	71
Floating breakwaters	72
Fish cleaning stations	72
Upland fish cleaning stations	72
Floating fish cleaning stations	72
Gangways	75
Chapter 7: Marine construction materials	77
Wood	77
Wood damage by organisms	78
Bacteria	78
Fungi	78
Insects	79
Beetles	79
Termites	80
Carpenter ants	81
Carpenter bees	82
Marine borers	83
Wood damage by nonliving agents	88
Wood-metal corrosion	88
Salt degradation	88
Chafing of timbers	89
Decay prevention	89
Keep moisture out	89
Wood preservatives	91
Creosote	92

Chromated copper arsenate	92
Ammoniacal copper zinc arsenate	92
Pentachlorophenol	92
Safety	92
Inspection for decay	93
Decay detection tools	95
Maintenance and repair of wood structures	97
Bullrails	97
Decking planks	97
Stringers	98
Cleats	98
Chocks	98
Steel	98
Dennis Nottingham's Method of Inspection for Open Cell Steel Bulkheads	99
Galvanic Series Chart	101
Concrete	103
Maintenance and repair of concrete surfaces	105
Foam flotation	106
Seven day Hunt absorption test for foam materials used as dock flotation	107
Chapter 8: Dockside cranes and straddle hoists	109
Dockside cranes	109
Crane inspections	110
Crane access control	110
Crane operator training	110
Marine straddle hoists	112
Chapter 9: Potable water systems	115
Chapter 10: Harbor electrical systems	118
Harbor electrolysis/corrosion	119
Galvanic corrosion	120
Electrolysis	120
Lighting systems	122
High-mast lights	122
Float-mounted lights	123

Piling-mounted lights	124
Chapter 11: Future developments in harbor operations . . .	125
Harbor maintenance management software	125
Harbor employee training	126
Port and facility security	126
References	128
Appendix A. Americans with Disabilities	
Act compliance	130
Appendix B. Harbor-related legislation, regulations,	
and programs	136
Appendix C. Trade and professional resources	144
Acronym glossary	147
Index	149
