

# Contents

<b>About the Symposium</b> .....	viii
<b>The Lowell Wakefield Symposium Series</b> .....	x
<b>About This Proceedings</b> .....	x
<b>Opening Comments</b> .....	xi
<b>Sea Grant, the American Fisheries Society, and Essential Fish Habitat: A Developing Relationship</b> .....	xiii

## Keynote Address

<b>Taking the Next Step in Fisheries Management</b> <i>Richard J. Beamish and Conrad Mahnken</i> .....	1
---	---

## Physical and Environmental Effects

<b>Climate Variation, Ecosystem Dynamics, and Fisheries Management in the Northwestern Hawaiian Islands</b> <i>Jeffrey J. Polovina and Wayne R. Haight</i> .....	23
<b>Spatial and Temporal Patterns of Covariation in Components of Recruitment of British Columbia and Alaska Sockeye Salmon</b> <i>Randall M. Peterman, Brian J. Pyper, Michael F. Lapointe, Milo D. Adkison, and Carl J. Walters</i> .....	33
<b>Predictability of Returns of Sockeye Salmon (<i>Oncorhynchus nerka</i>) to Bristol Bay, Alaska, 1-4 Years in the Future</b> <i>Milo D. Adkison and Randall M. Peterman</i> .....	37
<b>Comparison of Methods for Detecting Climate-Induced Changes in Productivity of Pacific Salmon Stocks</b> <i>Randall M. Peterman, Jeff Grout, and Brian J. Pyper</i> .....	39
<b>Influence of Physical Processes on the Early Life History Stages of Walleye (<i>Stizostedion vitreum</i>) in Western Lake Erie</b> <i>Edward F. Roseman, William W. Taylor, Daniel B. Hayes, Robert C. Haas, David H. Davies, and Scudder D. Mackey</i> .....	43
<b>Managing the Baltic Sea Cod (<i>Gadus morhua</i>): Stable Catches in an Unstable Environment</b> <i>Olle Hjerne and Sture Hansson</i> .....	57

<b>Retrospective Projection Using Monte Carlo Simulation: An Application of a Length-Based Model to Kachemak Bay Pink Shrimp</b>	
<i>Caihong Fu, Terrance J. Quinn II, and Milo D. Adkison</i>	59
<b>Variations in Abundance of Year Classes of Threadfin Hakeling (<i>Laemonema longipes</i>, Moridae) in the Northwestern Pacific Corresponding to Oceanographic Conditions</b>	
<i>Vadim P. Pavlychev and Andrew B. Savin</i>	79
<b>Monitoring Changes in Oceanographic Forcing Using the Carbon and Nitrogen Isotopic Composition of Prince William Sound Pelagic Biota</b>	
<i>Thomas C. Kline Jr.</i>	87
<b>Marine Survival of Puget Sound Coho Salmon: Deciphering the Climate Signal</b>	
<i>William D. Pinnix</i>	97
<b>Species Interactions</b>	
<b>First-Year Energy Storage Patterns of Pacific Herring and Walleye Pollock: Insight into Competitor Strategies</b>	
<i>A.J. Paul and Judy M. Paul</i>	117
<b>Feeding Behavior of Herring (<i>Clupea pallasii</i>) Associated with Zooplankton Availability in Prince William Sound, Alaska</b>	
<i>Robert J. Foy and Brenda L. Norcross</i>	129
<b>Some Processes Affecting Mortality of Juvenile Fishes During the Spring Bloom in Prince William Sound, Alaska</b>	
<i>T. Mark Willette, Ted Cooney, and Karen Hyer</i>	137
<b>Are Changes in Bering Sea Crab and Groundfish Populations Related?</b>	
<i>Gordon H. Kruse and Jie Zheng</i>	143
<b>Optimum Control in a Predator-Prey Model Based on a Two-Species Exploited Ecosystem</b>	
<i>Tatiana Bulgakova</i>	149
<b>Consumption and Harvest of Pelagic Fishes and Squids in the Gulf of Maine–Georges Bank Ecosystem</b>	
<i>William J. Overholtz, Jason S. Link, and Lynette E. Suslowicz</i>	163
<b>Multispecies Interactions in the Georges Bank Fish Community</b>	
<i>Jeremy S. Collie and Allison K. DeLong</i>	187

<b>Ecosystem Impacts of the KwaZulu-Natal Reef Fishery, South Africa: An Exploratory Model</b>	
<i>M. Verónica Toral-Granda, Coleen L. Moloney, Jean M. Harris, and Bruce Q. Mann</i> .....	211
<b>Trophic Relationships of Commercial Fishes in the Pacific Waters off Southeastern Kamchatka and the Northern Kuril Islands</b>	
<i>Alexei M. Orlov</i> .....	231
<b>Comparative Studies on Effects of Predation by Fish on Daphnia in Lake Donghu (China) and Loch Leven (Scotland)</b>	
<i>Yufeng Yang, Linda May, Iain Gunn, Xiangfei Huang, and Jiankang Liu</i> .....	265
<b>Concepts and Tools for Management</b>	
<b>Managing the Ecosystem by Leverage Points: A Model for a Multispecies Fishery</b>	
<i>Nicholas Bax, Alan Williams, Stevie Davenport, and Cathy Bulman</i> .....	283
<b>Sustainability: Empirical Examples and Management Implications</b>	
<i>Charles W. Fowler, Jason D. Baker, Kim E.W. Shelden, Paul R. Wade, Douglas P. DeMaster, and Roderick C. Hobbs</i> .....	305
<b>Incorporating Ecosystem Considerations into Management of Bering Sea Groundfish Fisheries</b>	
<i>David Witherell</i> .....	315
<b>Integrated Operational Rule Curves for Montana Reservoirs and Application for Other Columbia River Storage Projects</b>	
<i>Brian L. Marotz, Daniel Gustafson, Craig Althen, and Bill Lonon</i> .....	329
<b>Utilizing Ecosystem Concepts in Fisheries Management Strategies</b>	
<i>Kristine D. Lynch, William W. Taylor, John M. Robertson, and Kelley D. Smith</i> .....	353
<b>A Solution to the Conflict Between Maximizing Groundfish Yield and Maintaining Biodiversity</b>	
<i>Albert V. Tyler</i> .....	367
<b>Anthropogenic Influences</b>	
<b>Canadian Marine Fisheries in a Changing and Uncertain World</b>	
<i>Randall M. Peterman</i> .....	387
<b>A Report on Historical, Human-Induced Changes in Newfoundland's Fisheries Ecosystem</b>	
<i>Melanie D. Power and Nathaniel Newlands</i> .....	391

<b>Human Effects on the Baltic Sea Ecosystem: Fishing and Eutrophication</b>	
<i>Sture Hansson</i> .....	405
<b>Does Harvesting a Million Metric Tons of Sand Lance Per Year from the North Sea Threaten Seabird Populations?</b>	
<i>Robert W. Furness</i> .....	407
<b>Criteria for Designing Ecosystem-Based, Experimental Management: Bottom Trawling and the Bering Sea Ecosystem</b>	
<i>Thomas A. Okey and Gretchen A. Harrington</i> .....	425
<b>“Back to the Future”: A Method Employing Ecosystem Modeling to Maximize the Sustainable Benefits from Fisheries</b>	
<i>Tony J. Pitcher, Nigel Haggan, David Preikshot, and Daniel Pauly</i> .....	447
<b>The Effect of Urbanization on Fish Community Structure in a Large Michigan Watershed</b>	
<i>Kurt R. Newman, Daniel B. Hayes, and William W. Taylor</i> .....	467
<b>Will Reduced Discarding Help or Harm Seabird Populations?</b>	
<i>Robert W. Furness</i> .....	481
<b>Mixed Stock Pollock and Herring Fishery in the Northern Sea of Okhotsk During 1997-1998</b>	
<i>Vladimir Radchenko</i> .....	489
<b>Habitat and Spatial Considerations</b>	
<b>Identifying Seasonal Spatial Scale for the Ecological Analysis of Herring and Other Forage Fish in Prince William Sound, Alaska</b>	
<i>Evelyn D. Brown, Jia Wang, Shari L. Vaughan, and Brenda L. Norcross</i> .....	499
<b>Development of a Marine Habitat Protection Area in Bristol Bay, Alaska</b>	
<i>David Ackley and David Witherell</i> .....	511
<b>Comparing Models of Trophic Flows in the Northern and Southern Benguela Upwelling Systems During the 1980s</b>	
<i>Lynne Jane Shannon and Astrid Jarre-Teichmann</i> .....	527
<b>Modeling of Chub Mackerel (<i>Scomber japonicus</i>) and Sardine (<i>Sardinops sagax melanosticta</i>) During the Annual Migration Cycle</b>	
<i>Mikhail V. Pavlychev, V.A. Belayev, E.Y. Frisman, and Vadim P. Pavlychev</i> .....	543

# Whole Ecosystem Approaches

## **(Re)Constructing Food Webs and Managing Fisheries**

*Jason Link* ..... 571

## **A Multivariate Approach to Monitoring Changes in Species Composition of a Demersal Fish Community**

*Franz J. Mueter and Brenda L. Norcross* ..... 589

## **OSMOSE: A Multispecies Individual-Based Model to Explore the Functional Role of Biodiversity in Marine Ecosystems**

*Yunne-Jai Shin and Philippe Cury* ..... 593

## **Ecosystem Considerations and the Limitations of Ecosystem Models in Fisheries Management: Insights from the Bering Sea**

*Andrew W. Trites, Patricia A. Livingston, Marcello C. Vasconcellos, Steven Mackinson, Alan M. Springer, and Daniel Pauly* ..... 609

## **A Mass-Balanced Model of Trophic Flows in Prince William Sound: Decompartmentalizing Ecosystem Knowledge**

*Thomas A. Okey and Daniel Pauly* ..... 621

## **Applying Ecosystem Management to Fisheries in the Strait of Georgia**

*Richard J. Beamish and Gordon A. McFarlane* ..... 637

## **Keystone Predators in the Central Pacific**

*James F. Kitchell, Christofer H. Boggs, Xi He, and Carl J. Walters* ..... 665

## **Ecosystem Modeling of Becharof Lake, a Sockeye Salmon Nursery Lake in Southwestern Alaska**

*Ole A. Mathisen and Norma Jean Sands* ..... 685

## **Bering Sea Ecosystem—A Call to Action: An Interagency Collaborative White Paper**

*Steven Pennoyer, Frank Rue, and Deborah Williams* ..... 705

**Participants** ..... 717

**Index** ..... 728
