

# Contents

Introduction ..... 1

From Sustainability to Full Utilization

*James Browning* ..... 5

## Plenary

Alaska Seafood Byproducts: 2008 Update on Potential Products, Markets, and Competing Products

*Anthony P. Bimbo* ..... 9

Fish Gelatin: An Unmet Opportunity

*Joe M. Regenstein, Peng Zhou, Yan Wang, and Gokhan Boran* ..... 27

## New Products and Uses

Extraction and Determination of Chondroitin Sulfate from Fish Processing Byproducts

*Jesse J. Stine, Ted H. Wu, Alexandra C.M. Oliveira, Scott Smiley, and Peter J. Bechtel* ..... 41

Characterization of Dried Heads from Five Pacific Salmon Species, Dried at Different Temperatures

*Scott Smiley, Necla Demir, Alexandra C.M. Oliveira, and Peter J. Bechtel* 55

Functional Proteins from Catfish Roe

*Subramaniam Sathivel, Huaixia Yin, Yuting Wan, Jianing Pu, Peter J. Bechtel, and Joan M. King* ..... 67

Alaska Fish Byproducts as a Feed Ingredient for Reindeer

*Greg Finstad, Carrie Bucki, George Aguiar, Eva Wiklund, and Peter J. Bechtel* ..... 73

Crop Nutrient Recovery from Applied Fish Coproducts

*M. Zhang, S. Sparrow, A. Pantoja, and P.J. Bechtel* ..... 87

Enhancing Utilization of Alaska Fish Processing Byproduct Parts

*Peter J. Bechtel* ..... 105

## Stickwater and Wash Waters

Improving Waste Solids Quality and Recovery from Fish Processing Plants <i>Alan Ismond</i> . . . . .	115
Stickwater Processing by Membrane Filtration <i>Leo D. Pedersen, Scott Smiley, Peter J. Bechtel, and Chris Spengler</i> . . . .	121
Methods for Drying Stickwater <i>Sébastien Plante, Scott Smiley, Alexandra C.M. Oliveira, and Peter J. Bechtel</i> . . . . .	133
Recovery and Utilization of Protein from Surimi Processing Water <i>Joquín Rodrigo-García, Jacek Jaczynski, and J. Antonio Torres</i> . . . . .	147

## Storage, Stabilizing, and Processing

Storage Effects on Separated Pink Salmon Processing Byproducts <i>Ted H. Wu and Peter J. Bechtel</i> . . . . .	161
Converting Alaska Fish Byproducts into Compost: A Review <i>Brian Himelbloom, Mingchu Zhang, and Cindy Bower</i> . . . . .	177
Chemical and Quality Changes When Seeking Full Utilization of Seafood Resources through Pressure Processing Technologies <i>Rosario Ramírez and J. Antonio Torres</i> . . . . .	189
Stabilizing Pink Salmon ( <i>Oncorhynchus gorbuscha</i> ) Byproducts through Modified Silage Processes <i>Cynthia K. Bower, Katie A. Hietala, and Theodore C. DeLaca</i> . . . . .	207
Montlake Process for Utilization of Salmon Processing Waste in Alaska <i>Peter Nicklason, Peter Stitzel, Harold Barnett, Ron Johnson, and Michael Rust</i> . . . . .	221

## **Proteins, Hydrolysates, and Oils**

Hydrolysates from Scottish Salmon: Look before You Leap <i>Ian D. Wright</i> .....	235
The Chemical Composition and Oxidative Stability of Alaska Commercial Salmon Oils <i>Alexandra C.M. Oliveira, Trina J. Lapis, Tobias Popp, Brian Himelbloom, Scott Smiley, Peter J. Bechtel, and Charles A. Crapo</i>	241
Effects of Extraction and Purification Processes on the Quality of Fish Oil <i>Subramaniam Sathivel</i> .....	259
Composition of Hydrolysate Meals Made from Alaska Pollock, Salmon, and Flatfish Processing Byproducts: Comparisons with Traditional Alaska Fish Meals <i>Scott Smiley, Sébastien Plante, Alexandra C.M. Oliveira, and Peter J. Bechtel</i> .....	265
Physical and Chemical Properties of Pollock and Salmon Skin Gelatin Films <i>Roberto de Jesus Avena-Bustillos, Bor-Sen Chiou, Carl W. Olsen, Peter J. Bechtel, and Tara H. McHugh</i> .....	281
Bioactivities Found in Sardine ( <i>Sardinops sagax caerulea</i> ) Byproduct Hydrolysates <i>J.C. Ramirez-Suarez, R. Pacheco-Aguilar, E. Ponce-Alquicira, M.E. Lugo-Sánchez, A. Villalobos-Rodríguez, and I.G. Ortiz-Delgado</i> ..	295
Index .....	311
