Our partners are community groups, educators, and employers who share the vision of Alaska Natives and rural Alaskans pursuing education toward careers in fisheries, marine and ocean sciences.

We have a number of resources for Alaskans interested in the marine sciences and fisheries including the Future Alaskans in Fisheries and Marine Sciences website (www.sfos.uaf.edu/future), blog (www.future-alaskans.blogspot.com), electronic job board, Facebook page, and newsletters.

For More Information:
