Southeast Alaska Shellfish Farming Workshop: Module 1

May 14-16, 2015
Robertson Building, University of Alaska Southeast
600 Stedman, Ketchikan, Alaska

- Join us for a comprehensive 3-day workshop that will teach you the essentials of beginning shellfish farming. This workshop is the first of two modules. This first module concentrates on the fundamentals, regulations, oyster farming, and beginning business management. Sponsored by the Alaska Sea Grant Marine Advisory Program, University of Alaska Fairbanks, with cosponsors University of Alaska Southeast and OceansAlaska.

- Curriculum includes lectures, labs, guest speakers, and observing farming practices. One university credit is optional with completion of an assignment. For information on the course requirements and process for receiving this credit, please contact Ray RaLonde.

- Learn from the experts about nearly every aspect of oyster farming in Southeast Alaska led by Ray RaLonde, aquaculture specialist, Quentin Fong, business specialist, and Gary Freitag, Ketchikan agent for the Alaska Sea Grant Marine Advisory Program.

Course registration is available at:
